FIELD STRENGTH METERS

H.265

H-265 HEVC analyser and decoder

7GB

Fast-storage 7 GB capacity for user data

T2-MI de-encapsulation and analysis

Transport stream recorder and analyser

Websaver control via Ethernet port

Optional DAB and DAB+ digital radio

Optional optical power meter and RF converter

Common Interface slot for encrypted channels

Digital Channel Stacking LNB (dCSS)

Optional GPS for signal coverage analysis

Extended IPTV functions

Optional 5 GHz RF input

HD RANGER Lite

A HD Analyser at an impressive price. DVB-T/C/S and DVB-T2/C2/S2. Digital and analog. Spectrum, measurements and picture in a single screen. USB connection.

HD RANGER UltraLite

Greater in benefits, smaller in size. A tablet-sized field strength meter of less weight and volume, including analog video input and it is upgradable with new functions.

HD RANGER+

For those who want it all. Includes LTE filters and dynamic echoes analysis. Options for optical fibre and GPS. And more than 4 hours of battery life!

HD RANGER 2

When everything is not enough. Touch screen, real-time Transport Stream analysis, IPTV measurements and decoding, Common Interface (CAM), TS-ASI input and output, HDMI...

HD RANGER 3

Three steps in the right direction! HEVC H.265 analyser and decoder, T2-MI de-encapsulation and analysis, websaver control via Ethernet port, extended IPTV functions...
