

# Advanced IRS System Planning, Commissioning, Testing and Fault finding - Training Course (Whyte Technologies / Promax)

**Lunch and Refreshments Included. Cost: FREE**

This training seminar should not be missed by anyone involved in planning and installation of IRS Systems. You will learn how to plan, commission and test an IRS System quickly and easily. Learn how to quickly identify and resolve signal problems including LTE interference, and DC related faults, on live IRS Systems using the latest Promax spectrum analysers.

## Here's what you'll learn:

- IRS System Planning (practical)
- IRS System Commissioning/Testing/Data Logging (practical)
- RF Signal Measurement (theory)
- IRS System Fault Finding (practical)

This course is essential for all IRS System installers. Fault finding and resolving will be covered in theory and practical.
